

YUFE STARS

What does it mean for Students?

Presented by:

Małgorzata Błaszczak

YUFE Star System – what is it?

The **YUFE Star System** is an innovative system that rewards YUFE Students for taking up extra-curricular YUFE activities and for reflecting on their learning goals.

They encourage to pursue **personal and professional development** while experiencing **the possibility to contribute** as individuals to society through activities with a Europe-wide impact.

At YUFE we find it important to acknowledge your effort in mobility, language learning, professional training, job shadowing, and community volunteering.

That's why we've created [YUFE Stars](#) ›, an innovative recognition system for activities with specific and personalised learning goals that go beyond academic education in a European University setting.

The YUFE Star System consists of 4 Stars:

- the Mobility Star;
- the Language Star;
- the Professional Star;
- the Civic Star.

YUFE STAR - certificate WITH STARS

What to do to gain the YUFE STAR

The YUFE Mobility Star is awarded to students who engage in **physical or virtual mobility** through academic courses or extracurricular activities.

The main goal is to encourage students to gain international experience as part of their education.

The YUFE Mobility Star also has different levels, which depend on how many international courses/activities a student does.

The YUFE Language Star is designed as a reward for the efforts you make in improving and perfecting your language skills and competencies.

It's a formal learning, combined with practice and real-life experience of multilingualism, completed by a short personal reflection.

Activities are assessed in various ways: formative evaluation by a lecturer or teacher, peer coaching and self-assessment.

The YUFE Professional Star rewards personal and professional development activities. The focus on the Professional Star is on Entrepreneurship and Innovation competencies, related to the ability to always look further into proposed solutions that benefit every European citizen and region.

The YUFE Professional Star is based on the [European Entrepreneurship Competence Framework \(EntreComp\)](#) ›

This programme provides online training and support to YUFE students.

The online training tasks:
MOOCs (massive online open courses in Entrepreneurship and Innovation)
Talk Shows
Hackathons

The YUFE Civic Star is the reward for citizenship related actions. It means that student has to develop citizenship and personal competencies as well as having contribute to the society.

Students can gain YUFE Civic Star by choosing to participate in such actions in society as:

YUFE Help Desks,
YUFE Community Volunteering Programme or
YUFE@Home Initiative.

Through these activities and specific tasks, students will become active members of society and co-build strong university-citizen communities.

The work towards the YUFE Civic Star consists of training, the activity itself and self-reflection.
